The following Testimonial has been received from F. W. CROSS, Esq., Manager, Hong-KONG AND CHINA GAS COMPANY, LIMITED:-"I have berewith much pleasure in testifying to the quality of the FIRE BRICKS as made by

you at your new works. "In appearance the Brick is light and soft as compared with the ordinary Fire Brick used in the Colony, but this I may say is characteristic of the best English Fire Brick. "After a very severe test I have no hesitation in saying that this Brick is admirably suited to resist any degree of heat that it may be likely to undergo and for all purposes that Fire Bricks are used for.

"I am now about to build them into one of my Furnaces and have no doubt of their being able to stand as well as the English Fire Bricks I have been using."

But I challenge the soundness of that theory. say the Chinesein general do not require this sacrimatter. I have often been told that I was almost always in a minority in the discussion of the various sections of this Bill, but I was and am confident that the public at large, without distinction of races, will support me in most of my contentions. I was often charged also with looking too exclusively after the interest of landlords, but I always denied that charge. I do not only represent the interest of landlord, and personally I am not a landford, I care for the tenants as much as the landlords, and the poor as well as the rich. It is not for the welfare of the poor to have the valuable space occupied by their small rooms parrowed, in order to provide for a model of a privy, a superb kitchen and a sumptuous backyard of 10 feet wide, while at the same time the wicked landlords continue to charge the same rent or even a higher one for improvements and increased capital necessary to eff of such improvements. I am not aware of any law, except in Ireland perhaps, which will compel landlords

to lower their rent to an equitably low amount. Perhaps such law will be enacted here, but for the present at all events, all landlords, like everybody else, will want to get from 7 to 8 per cent net interest on their capital. What is the price of land now por square foot? In the central and most populous parts of China-town like Queen's Road Central, and Bonham Strand it is something like \$9 or \$10 or more, and even in the more distant and less valuable quarters, it is something like \$3 or \$4. Just fancy the position of the poor touant if this Bill becomes law. He would be forced to pay an enormous rent for less space than before, plus all sorts of Sanitary improvements which, however good in themselves from a European stand point, they do not care for, and which they think at least their constitutions do not require. They may say that they are habituated to such cities like Canton, Kowloong city, &c., compared to which Hong-kong as it now stands is a paradise, a model of Dr. Ho Kai's protest against 'the Public cleanliness, a perfect Sanitacium, and 'hat if any

CANTON.

FROM OUR CORRESPONDENT.

His Excellency Chang Chih-tung, the Viceroy, has petitioned the Emperor for permission to resign his office. The reason given by His Excellency is sickness. The petition was refused, but one month's leave of absence is granted to

enable him to recruit his health. Rumour assigns a different cause for His Excellency's wish to resign the cares of Government. It is reported that two Commissioners have been despatched to Canton to enquire as to a difference of more than four million taels said and those of the Viceroy. Peng, as your readers will remember, was Imperial Military Commissioner here for two years, up to May, 1886, 3.—Even now the By-Laws proposed to be said his accounts, so the tale goes, show four million taels more in the treasury chest than
